JUNE'23 - JUNE'24

RESEARCH TRAINING

**Published over 100 Research Papers in this program
till August 2022.**

In any field, research is essential. Not only students and academics, but all professionals and non-professionals must conduct research. Research is a tool for expanding one's knowledge and making learning easier. It is the seed of a desire to enjoy reading, writing, and analysing useful knowledge.

Psychopedia offers 2 months Research training program in which we guide students/professionals about how to write a research paper from the ground up. Our goal is for you to write one empirical paper, one review paper, and a PowerPoint presentation.

We guide them through the entire research process, from topic selection to data collecting and analysis to journal publication. We've seen that our training programme has significantly helped students get through their dissertations and ace their job or internship interviews while completing past batches.

So what are you waiting for? Enroll Now!!
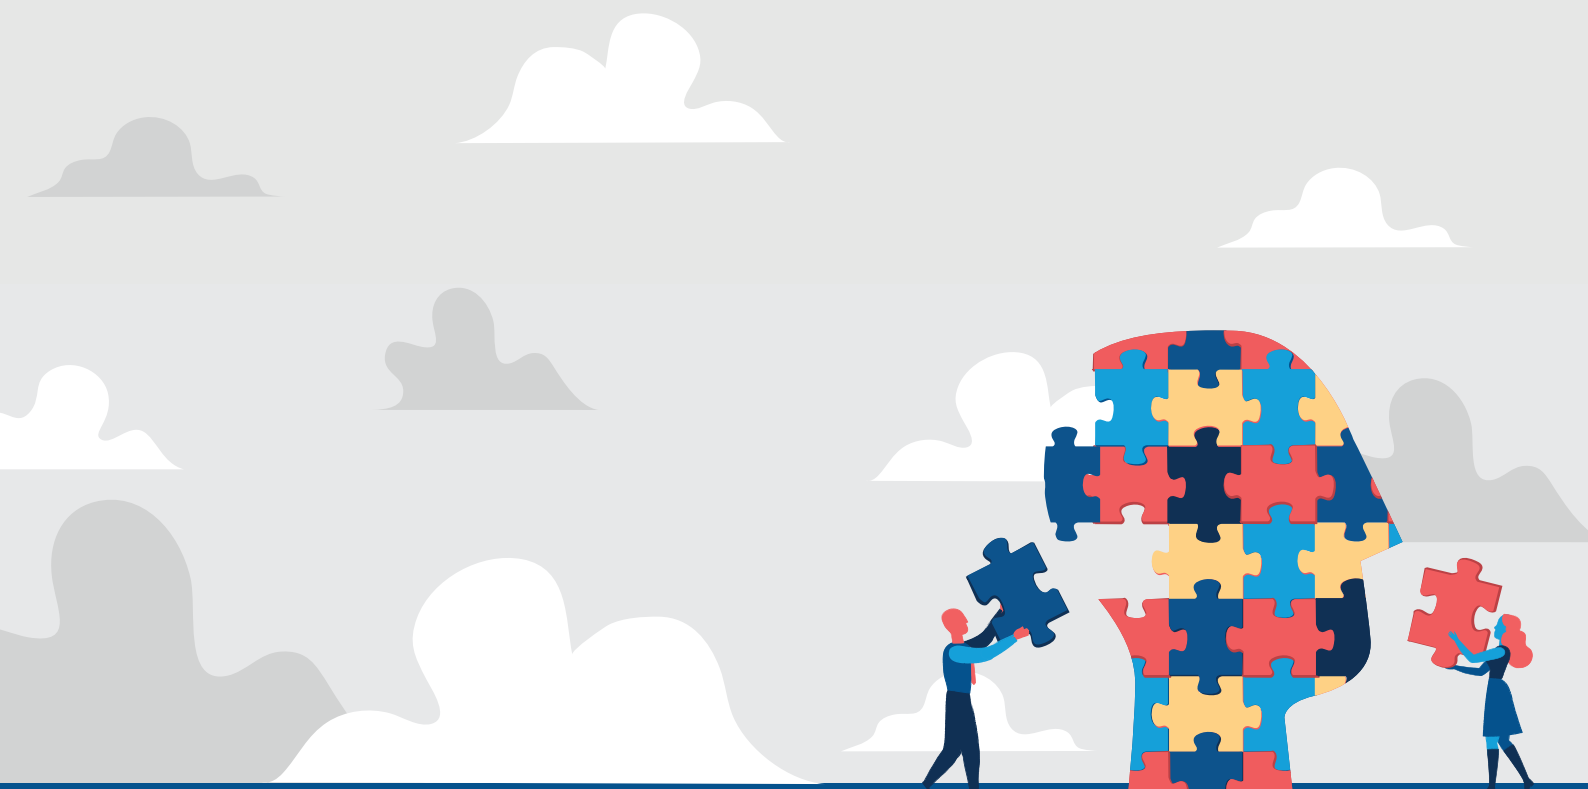

PSYCHOPEDIA
Two Months Research Training Program

Dear Students,
Psychopedia (Estd.2015) is running successfully for past seven years & from giving success stories as a Coaching Institute, we are now Training & Mentoring Students as well.

Who can enrol?

- Any Psychology student (Bachelors or Masters or Working Professional in field of Psychology) who wants to learn how to write and publish Research Papers & enhance their skills.
- Students planning to go abroad and require published research papers.
- Students who have to take admissions and require published papers.

Why Join the Program?

Research is an integral part in any field. Research is required not just for students & academics but all for professionals & non- professionals. Research is a tool for building knowledge & Facilitating learning. It is a seed to love reading, writing & analysing valuable information.

We will be teaching you writing Research Paper from scratch. Our aim will be to make you write One Empirical Paper, One Review Paper & Power Point Presentation (PPT for virtual conferences).

From selection of research topic to data collection and data analysis and finally publishing their journals, we will train you. While completing our previous batches, we have also noticed that our training programme has really helped students get through their dissertations easily and has helped them ace their interviews for jobs or for admissions at various universities.

By the end of two months you will have

1.   A firm foundation & clarity on Research process & writing Research Papers.

2.   Two Months Certificate

      (Also, when a student Publish their chapters or papers in any Journal, they get a certificate & the Journal on behalf of Publishers)

3.   Students can also request for Letter of Recommendation for same.

Please note all our certificates are credible, and are accounted for whether you apply in Indian Universities or Foreign Universities or for any Job

How will this work?

The classes will be online (Students from all cities are welcome)
Students will be enrolled with us for two months. As students are enrolled might be enrolled in other workshops & courses, we would request students to be fully committed for two months so that they gain their confidence in research.
The classes will be online. The Mentors will be available on WhatsApp or email for any other guidance as well.
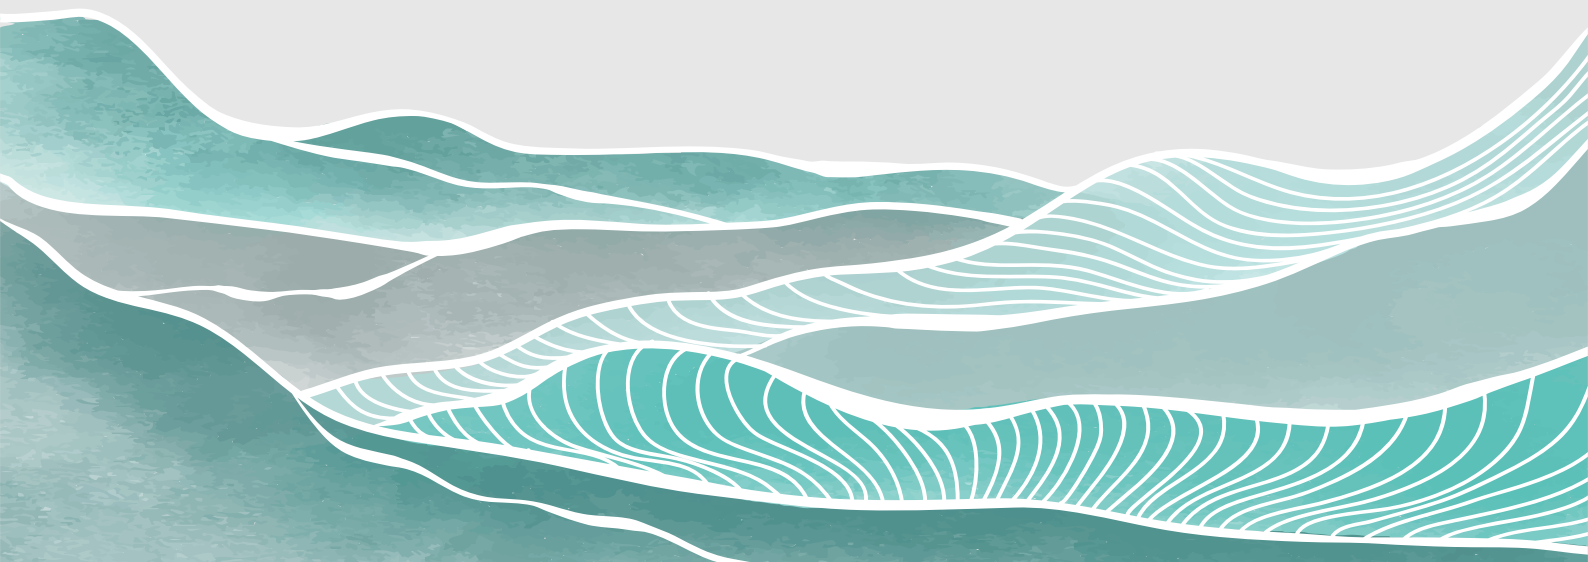

Fees

The total fees for Two months is 6000/- (The fees will be divided into two instalments, first instalment (i.e, 4,500/-) the second instalment (i.e 1,500/-).

Please note, as we take limited students in the batch so please only enrol if you can commit yourself, joining & then not being able to take out time, leaving the batch in between or not able to publish the paper in 2 month period, puts us in a bad spot & spoils the seat for individuals who could have committed themselves for the same

Please note the batch timings and alternates are decided only once the enrolment closes. If after filling the form the batch timing or day doesn't suit, you can decide the same beforehand before joining.

Please note we do not have our own journals, the journal fees is excluded in this program. Students are given a list of journals which are pocket friendly starting with 500/- rupees, and can publish their papers. Psychopedia has no collaboration with any of the Journal. Also, please note the UGC CARE LIST keeps changing after every 3 months, the journals we suggest are PEER_ REVIEWED & very much valid. The decision is completely of the student.

Research Paper / Dissertation / Synopsis Writing Assistance

Even the most talented of research professionals, struggle with getting their work and findings down in the form of a high-quality research article or paper. Pursuing publication in top, high-impact scientific journals is also something that the vast majority of these professionals find daunting and tough.

Luckily, we comprise a team of world-class research article writing and publication experts with utmost experience and are here to the rescue. When you reach out to and engage for our services, rest assured that you will be provided with high guidance level.
