Coaching Institute Researcher

JUNE 2025

Published over 500+ Research Papers in this program till June 2025 (Batch 22, Batch running since August 2021)

In today's competitive academic and professional landscape, research is not just a requirement — it is a distinguishing skill. At Psychopedia, we are committed to empowering students and professionals in the field of psychology with the knowledge, tools, and mentorship required to write and publish high-quality research papers.

Our **1-month intensive program** is designed to help you **write one full research paper** from scratch, right from topic selection to final manuscript submission. Whether you're a student preparing for higher education, planning to publish for admission purposes abroad, or someone who wants to build a strong research portfolio — this program is your first step toward becoming a confident and skilled researcher.

We provide comprehensive guidance throughout the entire research process – from selecting a relevant topic and conducting literature reviews, to data collection, analysis, and preparing the manuscript for journal submission. Our structured mentorship approach has consistently empowered students to confidently complete their dissertations and has significantly enhanced their performance during job and internship interviews, as evidenced by the success of participants from previous batches.

Step by Step Research Journey

STEP 1

Thinking Like a Researcher & Framing Smart Questions

- The foundation of groundbreaking research lies in asking the right questions. This module will immerse you in the mindset of a researcher, teaching you how to approach problems with curiosity, critical thinking, and a drive for discovery. You'll learn to identify research gaps, brainstorm innovative ideas, and, most importantly, frame smart, impactful research questions that are clear, concise, and answerable.

STEP 2 Mastering the Art of Literature Review

- A thorough review of literature is the backbone of any robust research project. We'll demystify this crucial process, teaching you effective strategies for identifying, evaluating, and synthesizing existing scholarly work. You'll learn how to navigate academic databases, critically assess sources, and construct a compelling narrative that contextualizes your research within the broader academic landscape.

STEP 3 The Art of Academic Writing

- Clear, concise, and compelling communication is vital for disseminating your research effectively. This section focuses on the art of academic writing, covering everything from structuring your arguments logically to refining your prose for maximum impact. You'll learn how to present your findings with precision, adhere to academic conventions, and craft persuasive narratives that resonate with your target audience.

STEP 4 Mastering Google Workspace for Researchers

- Efficiency is key in research. This module will equip you with the skills to effectively use Google Workspace for all your research needs. From collaborative document creation in Google Docs and organized data management in Google Sheets to impactful presentations in Google Slides and seamless project coordination with Google Drive, you'll learn to leverage these powerful tools to maximize your productivity and collaboration.

STEP 5 Mastering Google Workspace for Researchers

- Efficiency is key in research. This module will equip you with the skills to effectively use Google Workspace for all your research needs. From collaborative document creation in Google Docs and organized data management in Google Sheets to impactful presentations in Google Slides and seamless project coordination with Google Drive, you'll learn to leverage these powerful tools to maximize your productivity and collaboration.

STEP 6 Data Analysis with Jamovi

- Understanding and interpreting data is critical. We'll provide hands-on training in data analysis using software like Jamovi, a free and user-friendly statistical platform. You'll learn fundamental statistical concepts and gain practical experience in conducting various analyses, interpreting results, and drawing meaningful conclusions from your data.

STEP 7 Presenting with Impact: Conferences & Beyond

- Sharing your research with the wider academic community is an integral part of the research journey. This program emphasizes the importance of presenting in conferences and will equip you with the skills to present in conferences with confidence and impact. You'll learn how to design engaging presentations, articulate your findings clearly, handle Q&A sessions effectively, and network with fellow researchers.

STEP 8 Publish Your Research Papers With Us

- The ultimate goal for many researchers is to publish their research papers. We'll guide you through the intricacies of the publication process, from selecting the right journal and preparing your manuscript to navigating the peer-review process. With our support, you'll gain the knowledge and confidence to take the crucial steps towards getting your research published.

Embark on this intensive 1-month program and transform your research aspirations into tangible achievements. Enroll today and start your journey towards becoming a successful and published researcher!

By the end of the program, each participant will:

- Develop a **complete research paper**
- Understand the **entire research process**, including:
 - Topic identification and research question formulation
 - Literature review and source citation
 - Research methodology (design, sampling, tools)
 - Data collection and analysis (for empirical papers)
 - Structured academic writing and formatting
 - Identifying suitable journals for publication
- Create a **conference-ready PowerPoint** presentation

Who Can Enrol?

1. Undergraduate and postgraduate students in Psychology
2. Research aspirants preparing for **thesis/dissertation work**
3. Professionals in psychology looking to enhance research credentials
4. Students planning for **international admissions** or seeking publication credits

Fee Structure

The total fee for the **1-month program is ₹6,000**, divided into two instalments:

- First instalment : ₹4,500 (due at the time of enrolment)
- Second instalment : ₹1,500 (payable mid-program)

As a special benefit, **publication charges worth ₹1,500 are waived** for students who choose to publish their research with our in-house journal, **IJIAP (International Journal of Indian Applied Psychology)**. *(Please note first three classes are counted as trial class)*

What You Receive

- A full published research paper with IJIAP
<https://psychopediajournals.com/index.php/ijiap/index>
- Letter of Recommendation (on request for publishing/academic use)
